

OPTIMIZE SAP ASSESSMENT

# ARE YOU REALIZING THE FULL POTENTIAL OF YOUR SAP SOLUTIONS?

NTT DATA Business Solutions

## WHAT MAKES SENSE FOR YOUR BUSINESS?

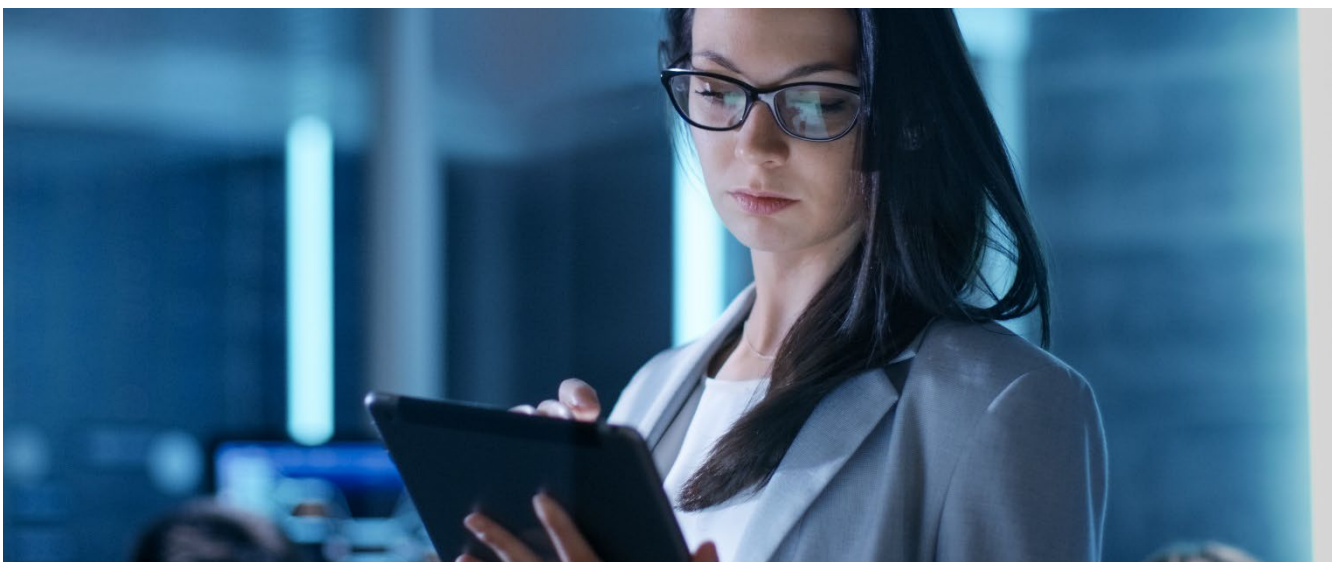

With the number of enterprise technology tools and solutions available today, many organizations find it confusing to determine the best options for achieving success with their SAP programs.

It's challenging for a business to unlock the potential of its technology landscape on its own, and many are looking for a structured viewpoint to help them understand industry challenges, streamline processes and identify opportunities for innovation.

What they need is an honest, detailed evaluation of the current environment and an open assessment to uncover opportunities to use existing tools more efficiently, prevent drops in performance and identify the innovations that make the most sense for the business.

With NTT DATA Business Solutions business advisory services, we work with your IT and business stakeholders as a trusted partner to provide pragmatic solutions with tangible results that deliver value for your business.

In the following pages, we'll discuss our approach.

## OPTIMIZE SAP ASSESSMENT: WHAT IS IT?

The Optimize SAP Assessment helps your business to identify areas for simplifying and improving your existing SAP environment.

Objectives for the assessment include:

- Maximize the value of your SAP investment with a cost-benefit analysis per optimization recommendation.
- Provide a pragmatic approach to realize the business benefits from the recommendations provided:
  - Crawl-walk-run approach
  - Establish momentum through “quick-hit” solutions
- Establish a greater partnership in resolving business issues and creating value:
  - Team approach
  - Detailed optimization report outlining recommendations and a planned roadmap approach to resolution

### Our Guiding Principles

1. Customer involvement from both business and IT leaders is essential.
2. Focus on customer process, data, and technology to be successful.
3. Executive commitment and support is a key success indicator.

## HOW IT WORKS

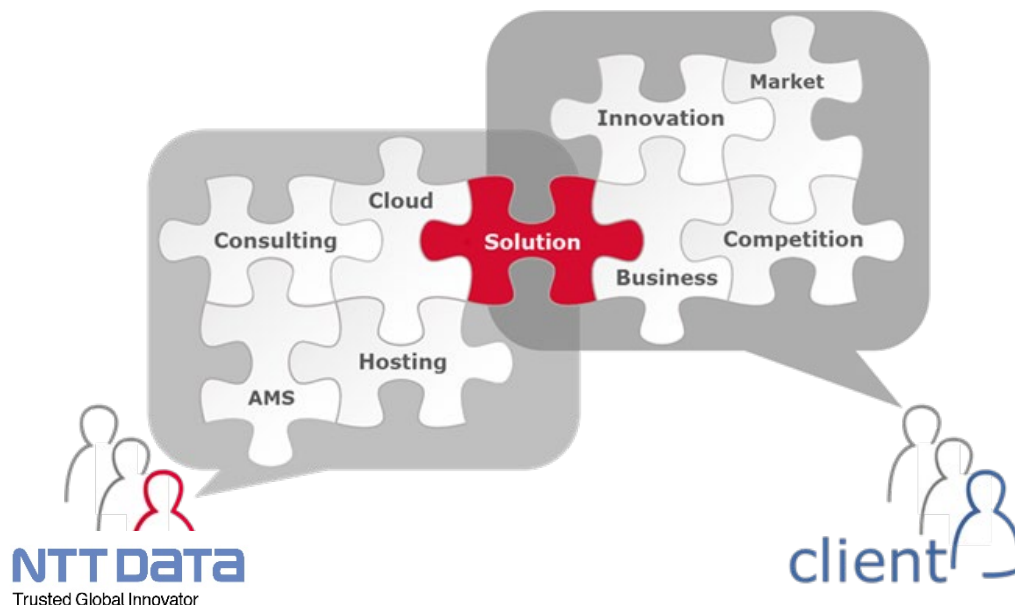

The best thing about the Optimize SAP Assessment is how quickly it can be conducted, and the time requirement for your resources is minimal.

- 1-2 days: project preparation with your team.
- 1-2 weeks: discovery workshops - current and future state.
- 2 days: assessment report.

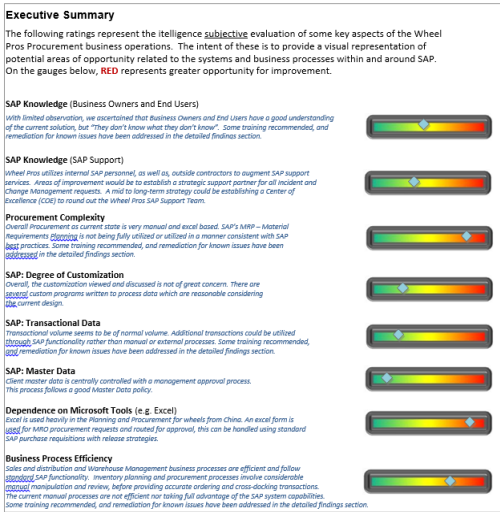

We work with your team to review current state, analyze processes, examine your master data and architecture design, and identify any issues or opportunities for improvement.

Next, we help to quantify critical gaps and opportunities, propose solutions to close gaps or introduce new processes, and prioritize a list of solutions to consider for quick hits or longer term projects.

**We deliver practical recommendations  
along with meaningful deliverables.**

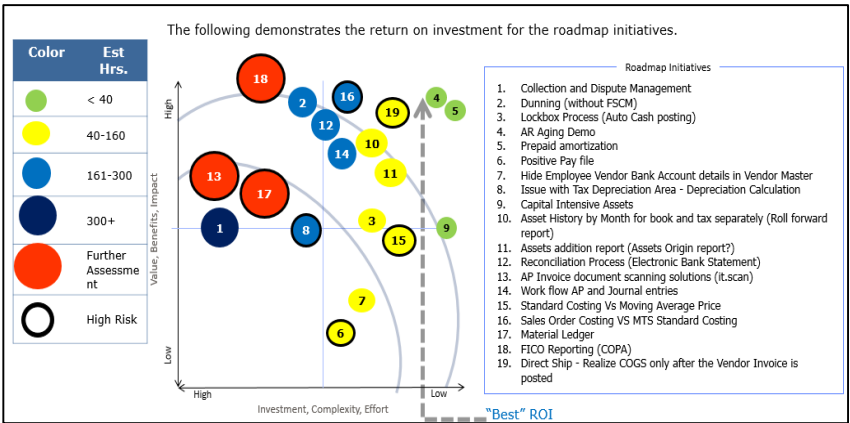

# OPTIMIZE SAP ASSESSMENT: SAMPLE REPORTS

## EXECUTIVE SUMMARY

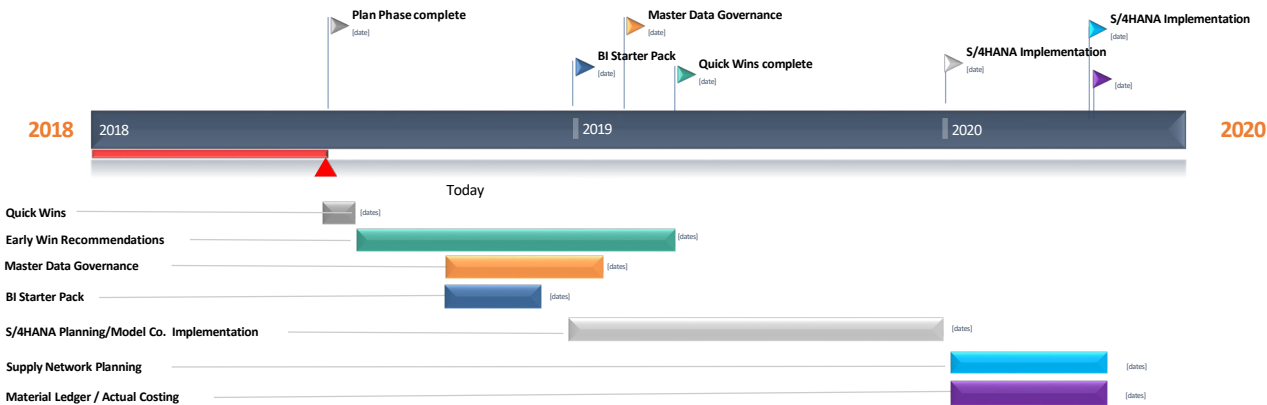

High-level summary and gauge for executive distribution and review.

## RETURN ON INVESTMENT / QUICK-WIN ANALYSIS

Identification of quick wins, detailed benefits, and return on investment opportunities.

## SAMPLE SAP ROADMAP

## HOW CAN NTT DATA BUSINESS SOLUTIONS HELP YOUR BUSINESS?

Choosing a trusted SAP Solution Advisor is the first step to uncovering the best solutions and strategies to run a more streamlined business.

Part of our unique strategy includes organizational assessments, with a qualified NTT DATA Business Solutions consultant analyzing your current SAP environment and carefully noting what is being used, what investments are being paid for but not fully utilized, and what SAP products may be beneficial down the road.

Why choose NTT DATA Business Solutions to make this assessment?

- Our 100% focus on SAP solutions provides a deep specialization as a full-service SAP provider with SAP Global Certification.
- Specialized industry focus ensures strategic consulting and personalized support and relationships.
- Dedicated AMS practice with more than 2500 employees focused on running, enhancing, optimizing and transforming your SAP Solution.
- One-stop global shop for complete SAP solutions, including end-to-end software, services, hosting and support.

# WHY WORK WITH NTT DATA BUSINESS SOLUTIONS?

## We Transform. SAP® Solutions into Value

Digital transformation helps companies reach their full potential – if the underlying technologies work for the people using them! At NTT DATA Business Solutions, we design, implement, manage and continuously enhance SAP solutions to make them work for companies – and for their people.
