

ShipERP Full Transportation

Drive Efficiency with Integrated Shipping Management

Businesses are often forced to maintain multiple carrier shipping stations and processes in the warehouse that may or may not integrate with their SAP systems. As a result, valuable time and resources are spent writing customized programs to address business needs.

What's needed is an easily configurable solution that empowers your organization to reduce freight costs, ensure on-time deliveries and order fulfillment rates, and manage other shipping processes in order to achieve better efficiencies.

Solution Overview

Fully Configurable, Single Shipping Solution: Creates a central planning module with real-time feedback.

Decrease Shipment Processing Time: Produce and send all required documentation for shipments.

Save on Shipment Expenses: Get the best rate by choosing between shipping carriers.

Your Benefits

Multi-Carrier Shipping: Facilitates all forms of shipping for SAP ERP users. The solution automates carrier comparison shopping, consolidates data and manages orders, all in one place.

Automatic Track & Trace: Supports track & trace capabilities within SAP native delivery (VL02N) transaction and the ShipERP transaction.

Adjust Shipping Services on the Fly: Provides the ability to rapidly ship products during the pick/pack/ship process and selectively adjust shipping services on the fly, all while adhering to SAP best practices.

Features and Functions

The ShipERP Full Transportation solution supports the following:

- Rate quoting
- Freight auditing of shipper carrier invoices
- Creation and cancellation of carrier shipments
- Hazardous materials shipping compliance
- Planning and transportation management
- Track & trace capability
- Determination of transportation mode and carrier/service at sales order or delivery creation
- Digital signature for bills of lading and customer proof of delivery
- AES direct integration for filing of electronic export information
- Denied party screening

Requirements

- Minimum of Release SAP ECC 6.0 EhP 0 or S/4HANA 1610
- Requires a software maintenance contract, which includes Help Desk support and product updates
