

## ShipERP Small Parcel

**Break Free from Manual Rating, Shipping and Tracking**

ShipERP Small Parcel is a multi-carrier small parcel shipping solution that was completely developed within the SAP ERP platform.

With ShipERP, all shipments are processed and tracked in real time directly within SAP, eliminating the use of third-party software that is not integrated. This completely configurable solution provides the ability to rapidly process shipments during the pick/pack/ship process as well as the ability to selectively adjust shipping services on the fly.

**Solution Overview**

**Easy to Install:** Install remotely with a rapid deployment process.

**No Training Required:** Uses the SAP user interface.

**Single Shipping Solution:** Manage UPS and FedEx carrier integration for Parcel shipments.

**Your Benefits**

**Multi-Carrier Shipping Integration:** Fully integrated to support shipping via the major carriers: UPS, FedEx, DHL and USPS Small Parcel Carriers.

**Real-time Connection to Carriers:** The solution provides a real-time connection to the major carriers, which means that you also get real-time updates on shipping status in your ERP system.

**Automatic Track & Trace:** Supports track & trace capabilities within SAP and the ShipERP transaction.

**Features and Functions**

The ShipERP Small Parcel solution supports the following:

- High-speed package processing
- Parcel carrier shipment creation and cancellation
- Printing of commercial invoices, certificates of origin, and NAFTA certificates of origin
- Manual shipments (no delivery required)
- Complete billing functionality (third-party, collect and prepaid)
- Multiple package shipments
- Track & trace within ShipERP Transaction

**Requirements**

- Minimum of Release SAP ECC 6.0 EhP 0 or S/4HANA 1610
- Requires a software maintenance contract, which includes Help Desk support and product updates.
