

Wolters Kluwer CCH SureTax

You've Never Been More Prepared or Compliant for All Your Tax Needs

All businesses are required to stay compliant, no matter how often the requirements change. However, most businesses don't have the sales tax software they need to meet their particular business needs and requirements. Productivity, functionality, and compliance is absolutely necessary for successful sales tax operations.

Wolters Kluwer CCH® SureTax® delivers the trusted tax content, solutions and expertise you need conveniently through one platform with seamless workflow focused on productivity.

Solution Overview

Streamlined Workflow: A simple and intuitive user experience to support daily activities such as updating, monitoring and reporting

Secure Environment: The solution is SSAE 16 SOC1 and SOC 2 Compliant

Easy Setup: Seamless integration into billing systems, remittance systems, accounting systems, shopping carts and in-house reporting systems

Your Benefits

Designed to Keep You Productive

End-to-end sales and use tax automation help increase productivity.

- Data flows seamlessly from your transactions between platform modules, removing manual data processes
- Process automation allows for set-it-and-forget-it functionality
- Cloud deployment for maintenance-free operation

Built for Sales Tax

Tax research data and functionality supports demanding calculations.

- Highly granular sales tax research content is specialized by industry
- In-house tax researchers ensure content accuracy
- On-call experts deliver the domain expertise needed for compliance
- Platform is customizable to meet the needs of your specific organization

Preparing You for Audit Defense

Built from the ground-up for audit defense to reduce your total cost of compliance.

- Tax calculation detail for every transaction allows results to be re-created and defended at audit.
- Configurable design supports complicated scenarios and tax requirements

Features and Functions

The Wolters Kluwer CCH® SureTax® solution provides the following:

- Industry leading – Wolters Kluwer sales and use tax content is SOC 1 compliant and has been selected by the Internal Revenue Service (IRS) for 13 consecutive years as sales tax content provider.
- Seamless Integration with SAP®-ECC 6.0 and S/4HANA
- Ensure Accuracy and Reduce Risk - it maintains the proper taxes and rules across all your service jurisdictions, and properly applies those rules to all your offerings
- End-of-Month Compliance Support - all results can be easily retrieved for in-house and remittance systems or made available to any compliance service provider
- Quotes - tax calculations for a product or service that are separate from the tax calculations for monthly reporting
- Transparency - provides transparency by storing detailed calculation values for each transaction, including nontaxable and tax exempt revenue, tax breakpoints for tiers/thresholds and tax on tax

Requirements

The solution requires a maintenance contract, which includes information services and change notifications, Help Desk support and product updates.
